

KLOVE is the only station in our area that plays contemporary Christian music and that I can safely listen to with my family. If KLOVE is displaced, the families in this area will not have any positive alternatives for radio. The music our youth listens to 'programs' them and has an effect on their actions. KLOVE is the only family friendly station on the FM dial!! While driving around town, I don't have to worry about being offended by the DJ or lyrics when I listen to KLOVE. I worry about the youth who listen to - and are shaped by - the 'trash' on other stations. It is in the public's best interest to provide positive alternatives to the other contemporary 'music' that is offered by today's media!
